

Humayun Naseer

Senior Full Stack Engineer (Ruby on Rails & React)

✉ humayunnaseer5@gmail.com ☎ +92 308 6086662 🔗 LinkedIn 🔗 humayunnaseer.github.io/Portfolio

Senior Full-Stack Engineer with 6+ years of experience building production-grade SaaS, healthcare, and analytics applications using Ruby on Rails and React.js. Proven track record of leading end-to-end development for international clients, with deep expertise in scalable architecture, multi-tenancy, and performance optimization. Currently expanding into AI-powered product development, LLM integration, and intelligent workflow automation.

WORK EXPERIENCE

Senior Software Engineer, Txxel 2022 – Present | Lahore, Pakistan

- **Full-Stack Ownership:** Led end-to-end development of React.js applications with seamless integration into Ruby on Rails APIs, ensuring high-performance and maintainable systems.
- **System Design & Architecture:** Designed modular and scalable backend architectures using Rails and PostgreSQL to support high-volume user traffic.
- **Cross-Functional Collaboration:** Worked closely with international product teams, enhancing feature delivery through strong communication and cultural alignment across time zones.

Software Engineer, Octek 2020 – 2022 | Lahore, Pakistan.

- **Backend Optimization:** Enhanced scalability and performance of large-scale Rails applications by identifying bottlenecks and optimizing ActiveRecord queries and background jobs.
- **Cloud & Deployments:** Deployed scalable apps using AWS EC2 and S3, and implemented containerization workflows with Docker for local and production parity.
- **Automated Testing:** Applied BDD and TDD, writing unit and integration tests with RSpec and FactoryBot.

KEY PROJECTS

WorkSphere, Front-End Developer - React js + Python - Flask 2025 – Present

An in-house platform for managing projects, finances, and resource allocations. It handles invoicing, tracks project and resource details, and provides insights into overall company performance

LearnME 🔗, Full-Stack Dev – Ruby on Rails + React.js 2023 – Present

- Led the full-stack architecture of a scalable learning platform for children with Autism (ASD).
- Implemented multitenancy, optimized deployments with Passenger/Nginx, and collaborated with stakeholders to deliver client-driven solutions.

Snack Magic 🔗, Backend Developer - Ruby on Rails 2022 – 2023

- Supported and contributed to a Spree-based gifting platform used by firms to deliver gifts globally.
- Worked on feature enhancements, Shopify embedded app integration, and ensured code quality through RSpec.

SKILLS

Ruby on Rails	React	JavaScript	Python	LLM	RAG	AI Agents	Vector DB
CI/CD	PostgreSQL	MySQL	Docker	AWS	Elasticsearch	TDD	BDD

EDUCATION

Comsats University Islamabad,
Bachelor in Computer Science (BSCS)

Sep 2015 – Jun 2019
